

Roads Report. For Oct.

- Snow fence installed on mini farm + Garden Rds.
- Roads graded for winter - will require a few touch ups - wayne will maniter and grade.
- ditch on woolmill at 1 mile Turn around. Road Edge was sliding into ditch had wayne fill and re-ditch, put rocks in to ~~catch~~ ^{keep} water off the ground as it fell.
- Removed beaver dams on ken's rd and Hilliard ton rd. with excavator.
- Recieved some gravel from bridge job and spread a few loads on ken's rd. with broken asphalt to stabilize Road bed at black muck Quarry.
- EGR valve installed on Plow Truck then discovered the connector pipe from E.G.R to ~~EGR~~ cooler was rusted out, changed that as well. Now leaking anti freeze and oil out of old cooler. ordered new oil cooler and "O" ring kit. Chris McLeod will change Thursday Oct 14th.
- sand is delivered for winter sand awaiting salt. wayne will mix and put in sand House.

- There are some Roadgides to cut for winter, wayne will cut them.

- Gutters have been replaced on front of building. Did not do back as there is no snow guard and they would not last.

Will see ~~you~~ you all
in November.
